What is the Arizona Early Childhood Development and Health Board (First Things First)?

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

First Things First Mission

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve, with a focus on demonstrating improved outcomes around First Things First's six goal areas prioritized by the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

First Things First Goal Areas

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood development and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional development and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health.

What is the Funding Source?

The First Things First initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the Board of First Things First. Funding is allocated to each Regional Partnership Council based on the population of children aged five or younger and the population of children aged five or younger whose family income does not exceed 100% of the Federal Poverty Level.

The Regional Partnership Council that is involved in the release of this Request for Grant Application includes the following:

- South Pima Regional Partnership Council

Who is Eligible to Apply for this Funding Opportunity?

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

What is the Total Funding Amount Available in this Request for Grant Application?

This is a ten (10) month contract with an option for renewal for two (2) additional twelve (12) month periods. Total funds available are approximately \$620,000 for the first funding period. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds. One or multiple awards may be made, with a maximum of six (6) grants awarded.

Scope of Work: What Will This Grant Fund?

The South Pima Regional Partnership Council had identified the need for regional implementation of the following strategy:

- Expand access to quality child care opportunities for preschool children, infants and toddlers and children with special needs by providing planning and start-up grants for early care and education programs to develop, expand or improve facilities in communities in the South Pima region where there is limited or no current access to child care programs.

Applications submitted in response to this RFGA must serve the communities in the following South Pima region zip codes: 85321, 85601, 85602, 85614, 85629, 85633, 85637, 85641, 85645, 85706, 85730, 85735, 85736, 85747, and 85748, including the communities of Ajo, Arivaca, Green Valley, Sahuarita, Sasabe, Vail, Amado, and Three Points.

Overwhelmingly, community stakeholders identified the lack of child care as the greatest need in the South Pima region. There is limited access to high quality early care and education throughout the region but some communities, such as Arivaca and Ajo, have no regulated child care either in centers or homes. Access to care is even more difficult for families of infants and toddlers. There is a great need for full-day, full-year programming. Many providers report lack of sufficient space as the most prohibitive barrier to providing care, especially for infants and toddlers, where square footage and adult/child ratio requirements exceed those for children three to five years.

The South Pima Regional Partnership Council plans to expand access to high quality child care in the region by providing planning and start-up grants for early care and education programs. Funds may be used to support the development of a plan and subsequent improvements to child care centers or family child care homes in order to create new or additional high quality child care slots. Applicants will demonstrate the need for new or additional child care slots and create a workable plan for how these slots will remain filled. All child care programs benefitting from First Things First funds through this strategy will be required to apply to participate in Quality First (AZ Quality Improvement and Rating System) or commit to the initial round of rating in Arizona's quality improvement and rating system.

The intended target population of this funding opportunity for planning grants, start-up grants, and quality improvement grants in order to increase the number of regulated child care opportunities is child care providers in un-served or underserved areas of the region. The programs should target areas currently lacking child care options with the highest priority given to the zip code areas listed in Tier I.

<u>Tier I</u>	<u>Tier II</u>	<u>Tier III</u>
85601	85614	85706
85736	85629	85730
85645	85641	85735
85321	85747	85748
		85602
		85633
		85637
		85709

In addition to targeted geographic areas, priority will be given for centers and homes expanding to serve infants and toddlers and programs that have full-day, full-year programming. Funding will be limited to one expansion project per community (which could include service to multiple zip codes from the above list) that demonstrates a collaborative approach to the expansion. There will be a maximum of six (6) grants awarded.

Research supports positive outcomes in increasing early literacy and readiness factors that are necessary for school success, related to children's enrollment in high-quality, consistent care and education programs. There are many examples of research, which support high quality early childhood programming, and there are now researched models of affordability available as well. For example, The *More at Four Pre-Kindergarten* model allows quality early care and education to be provided in a variety of settings addressing affordability and availability for families.

A study of the model found the following:

- Children exhibited substantial developmental growth across multiple skill areas including language and literacy, math, general cognitive knowledge and social skills.
- For Spanish-speaking children, growth occurred for skills assessed in both English and Spanish, with higher skill levels and growth in their home language associated with greater growth in skills in English.
- Children at greatest risk made similar or even greater gains over time compared to their peers, although they entered the program with lower skill levels and still had not caught up in many areas by the end of kindergarten.

To provide a continuum of care and expansion of quality, states such as New York and California have programs through the Low Income Investment Fund (LIIF) that provide early childhood professionals grants to improve, renovate and expand early care and education settings. According to LIIF, the impact of these grants has been especially substantial in New York. Since 2003, LIIF has supported 3,300 early care settings through offering technical assistance to 15 early childhood professionals and 23 planning grants totaling \$358,000.

Implementation Requirements:

This Request for Grant Application is seeking Applicants to address these specific Goals and Key Measures:

First Things First Goal Area to be addressed:

- Quality and Access

First Things First Goals to be addressed:

- First Things First will increase availability and affordability of early care and education settings
- First Things First will improve access to quality early care and education programs and settings

First Things First Key Measures to be addressed:

- Total number of children enrolled and vacancies in regulated early care and education programs as a proportion of the total population birth to age five
- Total number of infants and toddlers enrolled and vacancies in regulated early care and education programs as a proportion of total population birth to age three.

As part of successful program implementation, Applicants should describe in detail how they will:

- Utilize planning and start-up funds to provide new early care and education opportunities in communities demonstrating a need for high quality child care
- Assure compliance with First Things First Standards of Practice
- Demonstrate compliance with all city and state building codes, and documentation of all necessary contractor credentials
- Demonstrate compliance with all local or state regulations for child care operations and business operations
- Ensure high quality by requiring that once licensed or certified, homes and centers apply to enroll in *Quality First!*
- Ensure program utilizes a developmentally appropriate, evidence-based curriculum. In addition, adherence to the Arizona Early Learning Standards will be required if serving children three to five years of age
- Applicants must address how early language and literacy development will be addressed within their scope of work

Applicants must illustrate a community need for child care expansion and provide plans for outreach, recruitment, child care provider engagement and retention. Applicants must also show staff qualifications, supervision and training plans that will support the successful implementation of the program. Applicants must demonstrate the capacity to network and collaborate with other service providers to provide and coordinate the services needed for early care and education program expansion. This strategy provides an opportunity for multiple organizations and agencies within the

South Pima region to strengthen pre-existing or new partnerships. Priority will be given to Applicants who clearly outline their collaborations and include linkages with various community stakeholders to carry out this strategy.

Planning and start-up grants to increase the number of regulated child care providers would allocate funds toward any or all of the following: planning, improvement, remodeling, expansion, or construction projects which would increase the availability of quality services or increase the capacity of early care and education services for children birth through age five. This opportunity will enable participants to develop business plans, architectural/building plans, and (must include) plans for sustainability. Programs may also identify the need for resources to improve quality (i.e., playground equipment, minor renovation, costs associated with becoming licensed, certified or accredited and purchase of curriculum materials and training for their appropriate use).

This strategy must be implemented in coordination and conformity with appropriate licensing authorities (i.e., Department of Health Services [DHS], Department of Economic Security [DES] Child Care Administration, appropriate governmental building construction/renovation authorities) to ensure compliance with all guidelines, regulations, and laws. Applicant will adhere to State of Arizona/First Things First procurement policies and regulations.

Applicants must be, (if and when operating), regulated by a state, federal, military or tribal authority. Early care and education centers and homes receiving assistance must apply for participation in *Quality First*, or be nationally accredited by one of the state recognized accrediting organizations. Accrediting organizations include: American Montessori International (AMI/USA), American Montessori Society (AMS), the National Association of Child Care Professionals (NACCP), the National Association for the Education of Young Children (NAEYC), National Association for Family Child Care (NAFCC), the National Early Childhood Program Accreditation System (NECPA), Council on Accreditation, Association of Christian Schools International (ACSI), National Accreditation Commission for Early Care and Education Programs (NACCP). For the complete listing, please consult the Arizona Department of Education and/or the Department of Economic Security. Early care and education programs seeking re-accreditation for children older than five years are not eligible. Early care and education programs selecting an accredited program outside of those recognized by the Arizona Department of Education and/or the Department of Economic Security are not eligible to participate.

Regulation of Early Care and Education in Arizona includes:

- Arizona Department of Health Services (DHS) **Certified Group Home** for home providers who care for more than four children for compensation. These providers, except on military or Tribal lands, must be certified by the Arizona Department of Health Services (DHS). Child care providers who care for children in their homes can care for up to 10 children for compensation in a **DHS Certified Group Home**.
- The Arizona Department of Economic Security (DES) regulates and monitors some residential providers. These are called **DES Certified Family Child Care Homes**. They may care for no more than four children at one time for compensation. They may care for up to six children total; including the provider's own children. They may care for no more than two children under one year old. DES Certified home providers have an Arizona Child Protective Services (CPS) clearance. They are fingerprinted for a criminal background check and have provided proof of current training in CPR and First Aid. Their homes are inspected by the regulatory body for a wide variety of health and safety standards.

- On military bases where care is regulated by the military authorities.
- On tribal lands where care is regulated by the tribal authorities.

STANDARDS OF PRACTICE

- Applicants funded under this grant must, when operational, be regulated by DES, DHS, or if applicable, an Arizona Tribal Government, the Federal Government, or Military regulating body and be in good standing with the regulating body or bodies, as defined by First Things First.
- Applicants funded under this grant, once operational, must apply to enroll in *Quality First!* or seek accreditation by one of the State of Arizona Board of Education approved accrediting bodies.
- Applicants funded under this grant, once operational, must serve children in families earning 200 percent Federal Poverty Level or less.

Funds to expand capacity and quality are in the following categories:

Planning Grants:

To provide funds for providers to work with construction experts to plan and design the most effective way to expand the number of slots in either an existing center or home or in a new center or home. This includes planning and pre-development costs; including feasibility/sustainability study, business plan development, architectural services and other associated planning costs.

Start-up Grants:

To provide funds for remodeling of centers or homes in order to expand of the number of slots. A center or home expanding its capacity should include a demonstration of local need, specific plans for sustainability; staffing; and other organizational and community support.

Grants may be used to assist with start-up to defray costs associated with physical renovations that will increase capacity, improve the quality of the classroom, or to purchase equipment, such as furniture and supplies. Maximum amount would be \$200,000 per program.

The South Pima Regional Partnership Council stipulates that when requesting funds for purchase of a building or a construction project that involves renovation as part of implementation of this strategy, the Applicant must have a 40 percent (minimum 20 percent cash and 20 percent in kind) secured match in position at the time of Application. Additionally a description will include:

- Evidence of strong on-going support from the community and how such funding will enable this regional area to reach their goal and sustain efforts without grant funding
- Description of other attempts to meet this need and narrative that describes how no other resources exist (other than matching funds and/or in-kind) in the community to meet this need
- Justification of how it is expected that sustainability and operational resources are available after the life of this grant award
- Description of the anticipated possible ownership and maintenance for the capital asset should the entity no longer utilize the asset for the purpose for which funding support was approved by the Board
- Describe the source and amount for the 40 percent matching requirement for purchase or construction that involves renovation
- If requesting funds only for minor renovations and equipment purchases, similar to the stipulations above, the Applicant must have a 20 percent match (in kind or cash).

NOTE: In the event of new construction, there is a **50%** matching requirement.

Coordination and collaboration with all First Things First grantees is critical to developing a seamless service delivery system for children and families. Services and programs cannot be implemented in isolation and coordination and collaboration must occur within a region and across regions. First Things First staff and Regional Councils will identify opportunities for collaboration and coordination with successful Applicants that become grantees of First Things First. Successful Applicants will be required to attend meetings and workgroups in the region being served to identify, develop and implement mechanisms around coordination and collaboration. Successful Applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross-regional analysis. Successful Applicants will also participate in cross-regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, Applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, four cross-regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel policy as described on the budget narrative worksheet.

Any evaluation should be directly connected to the Goals, Key Measures, and the Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application.

Performance measure data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served / proposed service number). Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information, all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures. Performance Measures for purposes of this RFGA are as follows:

Performance Measures:

- Number of new centers providing care for infants and toddlers/proposed service numbers
- Number of new family child care providers providing care for infants and toddlers/proposed service numbers

- Number of newly licensed child care settings
- Number of newly certified home care setting

21. Are there specific training that might be needed for existing and/or new staff. Describe how and when this training will be delivered and how the training will enhance professional development of staff specific to this project. This should also be included in the implementation plan (Attachment D).

Budget (10%)

Each attached budget form is provided as an example to ensure that the line item budget and budget narrative provide a clear and concise explanation of the methods used to determine the amounts for each line item in the proposed program budget. All budget forms must be signed by an authorized agency representative.

22. Submit the Funds Requested Form (Attachment E). No additional narrative is required.
23. Submit the Line Item Budget (Attachment F). See Exhibit B for a sample line item budget. No additional narrative is required.
24. Submit the Budget Narrative (Attachment G). See Exhibit C for a sample budget narrative.
25. Submit the Disclosure of Other Funding (Attachment H). This list should include all other sources of funding currently received from other State or public agencies, Federal agencies, non-profit

organizations and other sources that will be applied to the proposed program/strategy(ies). Note that statute A.R.S. §8-1183 provides for a prohibition on supplanting of state funds by First Things First expenditures, meaning that no First Things First monies expended are to be used to take the place of any existing state or federal funding for early childhood development and health programs. In addition, the intent of First Things First funding is to address gaps and needs in the community rather than to fulfill budget shortfalls that may exist in any given year at the state or local levels. No additional narrative is required.

26. Describe your organization's business management system by completion of the Financial Systems Survey. Attach the Financial Systems Survey (Attachment I) to capture basic financial system/operational information to assess financial capacity early in the process. No additional narrative is required. As noted in the financial system survey, you are required to submit a complete copy of the most recent audited, reviewed or compiled financial statements as well as management letters and a schedule showing the TOTAL federal funds (by granting agency) expended by your agency for the most recent fiscal year. NOTE THAT ONLY ONE COPY OF EACH OF THESE DOCUMENTS NEEDS TO BE INCLUDED WITH THE APPLICATION MARKED "ORIGINAL".

The following applies to requested funds:

- List all resources that will be needed to implement the program/strategy(ies) described. These financial resources may involve costs for personnel, employee related costs, training, travel, supplies, space, equipment, computer equipment necessary to enter data into the First Things First data system, etc.
- Funding shall be limited to those items specifically listed in the proposed budget. Total funding may not be modified following award of the grant/contract. Requests for line item modifications, which do not change the total program funding, shall be requested in writing and shall only be made following receipt of written authorization from First Things First.
- Successful Applicants will be required to attend meetings and workgroups in the region being served to identify, develop and implement mechanisms around coordination and collaboration. Successful Applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross regional analysis. Successful Applicants will also participate in cross regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, Applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, four cross regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel rate for mileage, per diem and lodging as described on the budget narrative worksheet. For more information about the state requirements, visit <http://www.gao.state.az.us/travel/>.

Evaluation Plan (15%)

This component will address questions about how the program is working and what can be done to make the program more effective. The evaluation should be directly connected to the Goals, Key Measures, and Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all

performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served / 50 proposed service number).

Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information; all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures. Performance Measures for purposes of this RFGA are as follows:

Performance Measures:

- Number of new centers providing care for infants and toddlers/proposed service numbers
- Number of new family child care providers providing care for infants and toddlers/proposed service numbers

30. Complete the Evaluation Plan Overview table in Attachment J.

BUDGET NARRATIVE EXPLANATION

The purpose of the budget narrative is to provide more clarity and detail on the various budget line items. The budget narrative should explain the criteria used to compute the budget figures on the budget form. Please verify that the narrative and budget form correspond and the calculations and totals are accurate.

Personnel: *Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also, be sure to include the scheduled salary increases on the Budget Form.*

Fringe Benefits: *(Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.*

Contracted Consultant/Professional Services: *If professional consultants/services costs are proposed in the budget, define how the costs for these services were determined and the justification for the services related to the project. Explain how all contracts will be procured.*

Travel: *Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel, the justification for travel, how many employees will attend and how the estimates have been determined. Explain the relationship of each cost item to the project (e.g., if training or training expenses are requested, explain the topic of the training and its relationship to the project). Applicants **must** use the State of Arizona Travel Policy on rates for mileage, lodging, and meals (www.gao.state.az.us/travel/).*

Pass Through/Sub grants: *In the event that this application represents collaboration and the contract will be utilizing other sub grantees to perform various components of the program, include a list of sub grantees, programmatic work each sub grantee will perform, and how costs for each sub grantee are determined.*

Supplies and Operating Expenses: *Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less than \$5,000 are considered supplies and should be listed in this category. All purchases should be made through competitive bid or using established purchasing procedures.*

Administrative/Indirect Costs: *Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and **does not include** particular program costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in 2 CFR 220, 2 CFR 225, and 2 CFR 230.*

Applicants must list either Option A or Option B and provide proper justification for expenses included:

Option a - Administrative Costs: *with proper justification, sub grantees may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the*

project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.

Option B - Federally Approved Indirect Costs: If your organization has a federally approved indirect cost rate agreement in place, grantees may include an allocation for indirect costs for up to 10% of the grant request. **Applicants must provide a copy of their federally approved indirect cost rate agreement.**

Exhibit A

DEFINITION OF TERMS

As used in these Instructions, Special Terms and Conditions and Uniform Terms and Conditions, the terms listed below are defined as follows:

1. **“Activity”** means activities, services, and programs direct or indirect or contracted means to carry out strategies.
2. **“Application”** means bid, proposal or quotation.
3. **“Applicant”** means a person who responds to a RFGA.
4. **“Attachment”** means any item the RFGA that requires an Applicant to submit as part of the Application.
5. **“Best Practice”** means that there is a technique, method, process, activity, incentive or reward that is more effective at delivering a particular outcome than any other. Best Practice can also be defined as the most efficient (least amount of effort) and effective (best results) way of accomplishing a task, based on repeatable procedures that have proven themselves over time for large numbers of people. Best Practice is used to describe the process of developing and following a standard way of doing things that multiple organizations can use for management, policy, and especially software systems.
6. **“Collaborate”** means to work jointly with others or together to conduct planning, decision-making, or program execution; may include exchange of information or resources.
7. **“Contract”** means the combination of the RFGA, including the Instructions to Applicants, The Uniform and Special Terms and Conditions, and the Specifications and Statement or Scope of Work; the Application and any Application Clarifications; and any RFGA Amendments or Contract Amendments.
8. **“Contract Amendment”** means a written document signed by the Grants and Contracts Procurement Officer that is issued for making changes in the Contract.
9. **“Coordination”** means to take a leadership role and responsibility for outcomes in bringing people, organizations, or resources together to conduct planning, decision-making or program execution; to bring into a common action, movement, or condition.
10. **“Days”** means calendar days unless otherwise specified.
11. **“Early Child Development and Health” (ECDH)** means the array of programs, services, and supports in both Early Care and Education and Health which serve children aged birth through five years and their families.
12. **“Exhibit”** means any item labeled as an Exhibit in the RFGA or placed in the Exhibits section of the RFGA. Exhibits are resource materials.
13. **“Goal”** means broad measurable statement of intent to set a future direction; what an Applicant wants to accomplish. The goal communicates the direction of (more, less, maintain) the result statement. Goals indicate what First Things First will do as part of the comprehensive early childhood system. Each Goal is a piece of a larger picture and is inextricably interrelated and linked with the other Goals.
14. **“Goal Area”** means First Things First’s over-arching goals- Quality and Access; Health; Professional Development; Family Support; Coordination; Communications.
15. **“Grantee”** means any Applicant whose Application has been accepted and has been awarded a Grant with First Things First.
16. **“Grants and Contracts Procurement Specialist”** means the person, or his or her designee, duly authorized by First Things First to enter into and administer Contracts and make written determinations with respect to the Contract.
17. **“Key Measures”** means measures that align directly with Goals and indicate what we want to change. Many Key Measures listed will indicate whether regular progress toward First Things First Goals will be achieved within three to five years. Other Key Measures listed will provide important data to determine ongoing impact on and progress of the early childhood development and health system.
18. **“Logic Model” (LM)** means a sequential program planning, implementation, and evaluation process that identifies and links all elements to achieve positive impacts on individuals and the community. Using a logic model supports strong program/project planning and design, promotes realistic expectations, leads to identification of meaningful evaluation data, assists in monitoring progress and tracking changes so that successes can be replicated and

mistakes avoided. The logic model provides a standardized approach to grant planning, implementation and evaluation that is used across the Arizona Early Childhood Development and Health regions.

19. **"Performance Measures"** means a short-term impact that links to the Key Measures and include service numbers.
20. **"Promising Practice,"** means practices that were developed based on theory or research, but for which an insufficient amount of original data have been collected to determine the effectiveness of the practices. Practices in this category may have been studied, but they did not go through rigorous study designs. These practices have been tested but the results are not as clear as those results in the proven category above. Practices that fall in this category are based on some type of research – whether it is theoretical, qualitative, or quantitative – but data have yet to be collected on effectiveness. Promising practices may have been tested under different conditions and, therefore, may have a research foundation. However, the practices themselves have not been tested using the most rigorous research designs, or were tested in different contexts.
21. **"Proven Practice"** means the study design uses a convincing comparison group to identify program impacts, including randomized-control trial (experimental design) or some quasi-experimental designs. Sample size of evaluation exceeds thirty in both the treatment and comparison groups. Must directly impact one of the indicators.
22. **"Research-based"** means research that is based on the neuro-biological, behavioral and social sciences that has led to major advances in understanding the conditions that influence whether children get off to a promising or worrisome start in life.
23. **"RFGA"** means an a Request for Grant Application (RFGA).
24. **"RFGA Amendment"** means a written document that is signed by the Grants and Contracts Procurement Officer and issued for making changes to the RFGA.
25. **"School Readiness"** means the match between the range of developmental accomplishments (e.g., emerging literacy and numeracy skills, such as pretending to read stories or counting to 20, and small-motor skills, such as buttoning clothes and holding a pencil properly) and difficulties (e.g., such as restlessness and inattention, speech difficulties, and less than optimal health) that children bring with them when they arrive at kindergarten and the capacity of schools to educate all children regardless of the abilities, interests and talents they bring to school.
26. **"State"** means the State of Arizona, Early Childhood Development and Health Board who executes the Contract.
27. **"State Fiscal Year" (SFY)** means the period beginning with July 1 and ending June 30.
28. **"Strategy"** means general methods or overall approaches used to achieve goals. Strategies provide direction and are globally defined best practices that positively impact the lives of children and families served. Strategies work together and indicate how we will implement the Goals.
29. **"Subcontract"** means any Contract, express or implied, between the Grantee and another party delegating or assigning, in whole or in part, the furnishing of any service required for the performance of the Contract.
